SCHEDULE C

City of Quincy Rate Resolution

Sewer Rates, Fees and Charges

1. **Classes of users and definitions.** For purposes of determining and assessing charges for the provision of sewer services, the following terms are defined and used:

“Commercial” means and includes all users of the City’s domestic sewage treatment facility except Residential Users, including hospitals, schools, motels, retail businesses and all commercial and Industrial Users.

“Commercial Partial Discharger” means and includes all commercial users of the City’s domestic sewage treatment facility who discharge wastewater from all industrial processes to a third party wastewater system not owned or operated by the City.

“Contributed industrial” mean and includes any Industrial User connected to the City’s industrial sewage treatment facility on or after January 1, 1990, or which has paid a latecomer’s charge as described in Section 13.12.075 of the Quincy Municipal Code.

“Data Center Discharger” means a user who delivers non-contact cooling water after being used by data centers to cool equipment within the data centers.

“Hauled Brine Waste” means Brine Waste introduced into the City’s Brine Pond Facility which has been transported by truck, rail, or any other transport, and not through the domestic sewer system.

“Highly Concentrated Wastewater” refers to wastewater with TDS, BOD, TSS, and/or TKN in excess of the following concentrations:

- TDS: wastewater with a TDS concentration in excess of 500 mg/L. High TDS wastewater generally consists of brine waste, which is regeneration waste from Wastewater Demineralization Systems typically having TDS concentrations in excess of 30,000 mg/L; and brackish water, which typically has TDS concentrations between 500 mg/L and below 30,000 mg/L;
- BOD: wastewater with a BOD concentration exceeding 140 mg/L;
- TSS: wastewater with a TSS concentration exceeding 193 mg/L; and
- TKN: wastewater with a TKN concentration exceeding 32 mg/L.

The abbreviations TDS, BOD and, TSS refer to the abbreviations and terms set out in the City’s Wastewater Regulations, QMC 13.15. The abbreviation TKN means Total Kjehldal Nitrogen

“Industrial User” shall mean a user of the City’s industrial sewage treatment facility. Industrial Users are classified into one or more of the following categories: Contributed Industrial, Noncontributed Industrial, and Noncontributed Industrial II.

Monitoring Device means a device that measures wastewater flow and wastewater conductivity on a continuous basis, where the measurement of conductivity is a surrogate measurement for TDS.

“Contributed industrial II” means and includes any Industrial User connected to the City’s industrial sewage treatment facility on or after January 1, 1990, and before January 1, 1997, which has paid a latecomer’s charge as defined in Section 13.12.075 of the Quincy Municipal Code.

“Noncontributed industrial II” means and includes any Industrial User connected to the City’s industrial sewage treatment facility on or after January 1, 1997, which has not paid a latecomer’s charge as defined in Section 13.12.075 of the Quincy Municipal Code.

“Residential” means and includes any single-family dwelling and units in a duplex, triplex, apartment building and mobile homes. This class shall also include churches.

“Sewer flow” means the flow of wastewater from a user of the City’s sewage collection facilities, either as measured by the Water flow, or as measured by a flow meter installed immediately ahead of the connection to the City’s sewage facilities.

“Water flow” means the flow of water provided by the City to the user of the City’s sewage collection facilities, as measured by a flow meter installed at the point of departure from the City’s water main.

2. Structure of Rates for Users of Domestic Facility. Users of the City’s domestic treatment facility shall pay rates and charges based on connection to the City’s domestic sewage treatment facility, as follows:

a. Connection Charge. Charges for a user connecting to the City’s domestic treatment facility are based on the size of the meter, as follows:

Meter Size	Connection Fees
¾”	\$ 958
1”	\$ 1,149
1¼ & 1½”	\$ 1,916
2”	\$ 2,203
3”	\$ 3,832
4”	\$ 5,508
6”	\$ 7,424

b. Variable rates upon sewer flows and water flows. The rates and charges for sewer services based upon sewer and/or water flows are as follows:

USER CATEGORY	RATE
Commercial, per 100 cubic feet of Sewer flow, per month, but in any case not less than \$34.22 per unit per month	\$2.49
Non-contributed industrial II per 100 cubic feet of Sewer flow:	\$3.919
Data Center Discharges, per 100 cubic feet of Sewer flow	\$10.49

c. Monthly Fixed rates based on connection to and/or use. The rates and charges for sewer services based on a user’s connection to and/or use of the city’s sewage treatment facilities are as follows:

1) Basic Rate.

USER CATEGORY	RATE
Residential (per unit), per month	\$ 40.20
Multi-Residential (per unit), per month	\$ 40.20
Commercial (per unit), per month	\$ 37.60

Industrial / Partial Commercial Discharge	In addition to the use of the City's industrial sewage treatment facility based on an average flow to the City's domestic sewage treatment facility, as determined by the City by means of periodic use of flow measuring devices installed immediately ahead of the connection to the City's domestic wastewater facility, a calculated flow of 160 cu. ft. per month, per employee, or any other means that the City deems to be most representative of actual flow.
---	--

2) Charges Affected by Yard Watering.

- a. Any commercial or industrial user with 5,000 square feet of lawn to water and one meter for both building and lawn will be charges for sewer service by the City's domestic sewage treatment facility by averaging the previous year's water use for the months of October, November, December, January, February and March and using the average of these six months as a flat rate to be charges each month of the year.
- b. Any residential or commercial user that has a separate meter for lawn watering purposes will not be charged for services provided by the City's domestic sewage treatment facility on such separate meter.

d. Rates for Highly Concentrated Wastewater. Users of the City's domestic treatment facility required to install a Monitoring Device shall pay the following rates for highly concentrated wastewater discharged to the City's domestic treatment facility:

		RATE
1)	a. TDS concentrations of 2,000 mg/L or less, per pound of TDS in excess of .00416 pounds of TDS per gallon	\$2.08
	b. TDS concentrations exceeding 2,000 mg/L, per pound of TDS in excess of .00416 pounds of TDS per gallon	\$3.00
2)	BOD in excess of 140 mg/L, per gallon	\$.81
3)	TSS in excess of 193 mg/L, per gallon	\$.43
4)	TKN in excess of 32 mg/L, per gallon	\$2.12

e. Disconnection Charge. Charges for a user physically disconnecting from the City's domestic treatment facility shall be \$150. A reconnection to the City's domestic treatment facility shall be the connection charge set out in subsection (a).

3. Structure of Rates for Users of Industrial Facility. Users of the City's industrial sewage treatment facility shall pay rates and charges based on connection to the City's industrial sewage treatment facility, as follows:

a. Monthly Rates for connection to and use of Industrial Facilities. Rates are set based upon revenue required for operations of the facility and established based on impact by the individual industrial users.

USER CATEGORY	RATE
Contributed Industrial, per month	\$ 177,753
Contributed II Industrial, per month	\$ 85,026
Noncontributed Industrial II, per month	\$ 8,418

b. Rates for connection to the City’s industrial sewer due to the Facility Cost Component of the current Operations and Maintenance Agreement with the Service Provider.

1) Assessment and formula. In addition to the rates and charges for contributed industrial and non-contributed industrial users set out in Section 3(a) above, the contributed industrial and non-contributed industrial users are assessed the capital improvements cost as needed for the continued operations of the Industrial Treatment Facility. The rates described in this Section 3(b)(1) are based upon connection to the City’s industrial sewage treatment facility, and are not a function of the discharge of sewer flows to the City’s industrial sewage treatment facility:

2) Rates. The monthly rates and charges for connection to and use of the City’s industrial sewage treatment facility, are as follows:

USER CATEGORY	RATE
Contributed Industrial, per month	\$ 21,297
Contributed II Industrial, per month	\$ 10,187
Noncontributed Industrial II, per month	\$ 3,933

4. Fees for Wastewater Discharge Permits and General Permits required under the Pretreatment Program.

The City has adopted its Pretreatment Program, pursuant to QMC 13.15, requiring Users discharging wastewater into the City’s POTW to obtain a Wastewater Discharge Permit or a General Permit (“Permits”, in this subsection (4)), the fees for which are as follows:

a. Definitions. Terms used in this subsection (4) shall have the same definition as set out in QMC 13.15.125.

b. Application Fee. The Application Fee for a Permit shall consist of a Base Fee and may be subject to an Additional Review Fee for engineer review time. All new, renewal, and modification applications are subject to the Application Fee.

1) Base Fee. The Based Fee shall be \$250.00, nonrefundable, and excludes costs for review time by the City’s engineers.

2) Additional Review Fee. The Additional Review Fee shall be equal to the actual costs incurred for hours spent by the engineer contracted by the City to conduct the review of an application for a Permit.

3) Payment. The Base Fee shall be paid at the time the application is made for a Permit. Additional Review Fees will be billed upon receipt of the invoice submitted by the City’s contracted engineer. No permit shall be issued until all outstanding fees are paid in full.

c. Annual Fee.

1) Amount. The Annual Fee for a Permit shall be the same fee established in WAC 173-224-040, as currently established, and as it may be amended.

2) Payment. The Annual Fee for a Permit shall be paid in two (2) equal installments on or before January 31 and July 31.

d. Miscellaneous Fees.

1) Chemical Testing Fees. The fees incurred for the chemical testing, required by Department of Ecology, will be invoiced to the Permittee monthly.

- 2) Administrative Fee. An Administrative Fee may be assessed and invoiced in addition to any fee charged under this subsection (4).
- e. Delinquency. A fee charged under this subsection (4) shall be delinquent if not paid within 30 days of being invoiced. Upon delinquency, there shall be assessed a penalty in the amount of one percent (1%) per month of the outstanding balance, including penalties, or ten dollars (\$10.00) per month, whichever is greater.

5. **Charges for Hauled Brine Waste.** Dischargers of Hauled Brine Waste shall pay a rate equal to the sum of the following charges:

Per deposit rate	\$ 20.00
Rate per gallon of Hauled Brine Waste Discharged	\$.04
Rate per pound of TDS Discharged	\$.22

- 6. **Charges for service outside corporate limits.** All sewer charges for sewer services outside the corporate limits of the City shall be two times the amount chargeable under section 2, above, if the services were provided within the corporate limits of the City, and prior to the supplying of sewer services outside the City limits, written contract therefore shall be made and executed between the City and the ex-corporate user.
- 7. **Additional charge when pavement broken.** In addition to the hook-up charges established for sewer hook-ups, there shall be charged for all hookups where it is necessary to break asphalt or other type of paving in the streets of the City \$2.00 per square foot for each square foot of paving removed in making said hook-up or a minimum of \$20.00.
